

2024

Meetings & events

has never been more important

AI, remote work and an unsafe environment. Conferences and kick offs are always important for companies and organizations but in changing times they become indispensable. Common goals and values lay the foundation for the business and, in addition, a positive working climate, an inspired atmosphere and good cooperation are needed. Then there is nothing that beats the physical meeting.

All signs indicate that 2024 will be a meeting-intensive year with continued growth for the meetings industry.

TID FÖR KONFERENS (Time for conference) is Sweden's largest independent magazine for meetings and events. The magazine is in its 23rd year and, with its annual publications, has established itself as one of the most important marketing channels for the meeting industry. Tid För Konferens is distributed twice a year, spring and autumn in Dagens industri – the Nordic region's largest business newspaper.

BEHIND THE NEWSPAPER IS Newsfactory Media Group. Thanks to the high quality of the editorial content and the inviting layout, the magazine has become an obvious media choice for many meeting facilities, conference, travel and event organizers.

TOGETHER WITH YOU we at the editorial office want to focus on tomorrow's meetings. Time for conferences wants to contribute to new perspectives through exciting trend research and interviews with inspiring people. For us, it has always been important to highlight the financial benefits of investing in our employees through various activities such as team building, training, conferences and events. We will continue to show that every krona invested in the staff gives at least two kronor back. Committed teams are a prerequisite for companies to create additional sales and customer value.

WHY THE MAGAZINE TID FÖR KONFERENS?

The magazine has an enormous impact as it is distributed in the Nordic region's largest business magazine Dagens Industri's - national edition. It provides a potential reach of 267,000 readers, which is a unique opportunity for you to increase sales and profitability. Through Dagens Industri you reach those who decide when, where and how! It is difficult to reach that purchasing power in a more cost-effective way than in Conference Time. In addition to the printed magazine, it is produced in a digital version that is distributed to buyers and suppliers of meetings, conferences and business trips, as well as in our own networks and social media.

WELCOME TO PARTICIPATE in one of the country's largest independent media initiatives on the theme of conferences and events.

Let's together make 2024 a rewarding meeting year! ♦
